

Hasan Abdul Raouf

01013821957 | hassansilim3@gmail.com | Egypt
Senior Full Stack Engineer | TypeScript, React & Node.js

PROFESSIONAL SUMMARY

Senior Full Stack Engineer with a proven track record of engineering and deploying 150+ high-performance web applications across 12+ countries. Specializes in building robust, scalable systems using TypeScript, Node.js, and PostgreSQL, with a strong focus on end-to-end delivery from database design to pixel-perfect React frontends. Experienced in architecting REST APIs, implementing server-side tracking, and optimizing system performance for real-world conditions. Proven ability to bridge technical complexity with business goals, ensuring maintainable, future-ready solutions that drive measurable outcomes and client satisfaction.

CORE SKILLS

- TypeScript JavaScript React Node.js Express.js PostgreSQL REST API Development
- System Design CI/CD Pipelines Performance Optimization Technical Documentation
- Remote Collaboration

PROFESSIONAL EXPERIENCE

Full Stack Developer & Creative Strategist - Freelance / Independent

- Architected and deployed 150+ successful full-stack web applications for clients across 12+ countries, achieving 100% client satisfaction through robust backend and frontend solutions.
- Engineered scalable REST APIs and complex data models using Node.js, Express, and PostgreSQL, ensuring type safety and performance under high-load conditions.
- Developed performant, accessible user interfaces using React, Vite, and Tailwind CSS, focusing on clean architecture, state management, and pixel-perfect design implementation.
- Implemented CI/CD pipelines and automated testing strategies (unit and functional) to maintain zero-vulnerability deployment standards and accelerate team velocity.
- Optimized database queries and server-side logic to improve application performance, reducing load times and enhancing the overall user experience.

EDUCATION

Bachelor of Business Administration
